

PHILLIPS PHARMA GROUP – REPORT AN ADVERSE REACTION*

* any untoward medical occurrence that may present during treatment with a medicine, but which does not necessarily have a causal relationship with this treatment – coincidence in time without any suspicion of causal relationship, or a response to a medicine which is noxious (harmful) and unintended, and which occurs at doses normally used in humans, including:

- Abnormal tests or laboratory findings
- Signs and symptoms of clinical significance
- Changes in physical examination findings
- Hypersensitivity
- Progression of underlying disease
- Drug interaction
- Drug dependency
